HAVI brand launched in 2007 is backed by a manufacturing expertise and manufacturing experience of around 65 years. Based in Mumbai, India it is backed and supported by well-networked representatives and distributors in the domestic as well as international markets in over 21 countries and counting. Our specialty lies in instrumentation Valves such as Manifold Valve, Needle Valve, Ball Valve, Double Block & Bleed Valve, etc. & Fittings for Instrumentation and Hydraulic Application along with piping accessories.

We thrive in understanding the needs of our esteemed customers whilst striving for design improvement and performance consistency simultaneously. The quality-oriented culture inculcated in the company has paved the pathway for us being the only Indian company to be on the approved Supplier list of renowned names like ADGAS, TAKREER, PETRONAS, BOROUGE and many more.

Backed by able infrastructure and State-of-the art CNC machineries and SCADA-based testing machine, we are able to precision engineer our product range which caters to diversified industries such as Oil & Gas, Chemical, Petrochemical, Railways, Automobile, Fertilizers. etc. The heart and strength of the Organization lies in the unrelenting commitment and timely deliverance of the TEAM during every phase of the journey of HAVI with the same intensity and integrity. We pride ourselves on of a highly motivated work-force ably led by the vision of our dynamic Directors, Mr. Vipul Dalal & Mr. Vipul Panchal who instill a highly energized working environment aimed at attaining world-class quality and competing with the very best.
